

Command Cheat Sheet

Every slash command, shortcut, and activation protocol – all in one place

L99 Prefix any prompt with **L99** to force maximum reasoning depth + a direct committed recommendation. Less "it depends," more decisive conviction with clear tradeoffs stated.

ACTIVATION COMMANDS

 **Genius Mode (AGM)**

FLAGSHIP

AGM PROTOCOL

- 01 Say **AGM** or **Activate Genius Mode** — confirmation returned, mode active
- 02 Every input is re-engineered into a structured prompt using the Engineer's Template before execution
- 03 Engineered prompt presented under **ENGINEERED PROMPT – AWAITING APPROVAL** — no execution until approved
- 04 Say **go** / **approved** / **run it** to execute · **Edit: [feedback]** to revise · **Normal mode** to deactivate

 **Master Activations**

5 commands

ACTIVATE::SALES13+PROMPTLIB Both doctrine systems active simultaneously

PROMPTLIB::ROUTE Find the best prompt library match for a task

PROMPTLIB::OPEN::{{TITLE}}::{{type}} Open specific prompt / skill / workflow / agent

PROMPTLIB+SALES13::APPLY Execute with both systems combined

PROMPTLIB+SALES13::AUDIT Audit content using both systems

\$ **SALES13 Doctrine**

9 commands

SALES13::APPLY

SALES13::COPY

SALES13::OFFER

SALES13::AUDIT

SALES13::PITCH

SALES13::LAUNCH

SALES13::DESIGN

SALES13::STORY

SALES13::PRICE

Auto-activates on: branding · design · story · copy · offer · launch · pitch · sales · conversion tasks

SLASH COMMANDS

/ **Slash Commands**

6 modes

/ghost Human voice — no AI clichés, varied sentence rhythm

/godmode First-principles, unfiltered, zero fluff or padding

/layered 3-level breakdown: beginner → mid → expert

/unpack Full deconstruction of a concept or system

/livecode Production-ready code with inline comments

/investigate Journalist-style deep dive with sourcing
